November 2023

UNLOCK THE POWER OF KNOWLEDGE WITH OUR FREE WEB APP!

In the battle against **fake news** and **disinformation**, Break the Chain web application is your ultimate ally. Tailored for trainers and adults, this platform offers a wealth of engaging learning activities in various formats, including text, videos and quizzes.

WHAT'S INSIDE OUR WEB APP?

More than **120 activities** are organized into three categories: **Disinformation: Theoretical part** and **Disinformation: Practical part** for adults seeking to learn about fake news and disinformation, and **Specifics of teaching older adults** for media literacy trainers working with adults aged 55 and above. These activities complement the project's first result – **Manual for trainers** - and delve further into the fundamental issues of educating and learning about disinformation.

By participating in these activities, users can gain the skills needed to navigate the complex landscape of fake news and disinformation, and become critical consumers of online information.

KEY FEATURES

- **Filters:** Personalize your learning experience with filters for category, form or activity duration.
- **Notifications:** Receive tailored activity recommendations via automated reminders based on your preferences.
- **Rating & Favorites:** Rate activities with user-friendly widgets and mark favorites for quick access.
- **Activity Completion:** Keep track of your progress as you conquer each learning milestone.
- **User Profile:** Your profile showcases your achievements and interactions, providing a comprehensive view of your journey.

INNOVATION UNLEASHED

Our app empowers you to select activities that match your unique needs. Personalized learning pathways ensure you acquire knowledge that truly matters to you.

IMPACT THAT COUNTS

Our visually appealing design transforms learning into an interactive and enjoyable experience. With personalized learning paths, you'll master the art of discerning real news from fake in a fun and engaging way.

PROJECT MEETING IN MADRID

The Break the Chain project team held their second in-person meeting back in September, hosted by our gracious partners at iCmedia in Madrid. During the meeting, we made significant headway with the finalization of the **Web App** and **Dynamic Demonstrator**, as well as planned out the next steps of the project. As we are approaching the final stages of development, our team is thrilled to share all the project results with you soon!
